

Outdoor Mirrors

Outdoor Mirrors

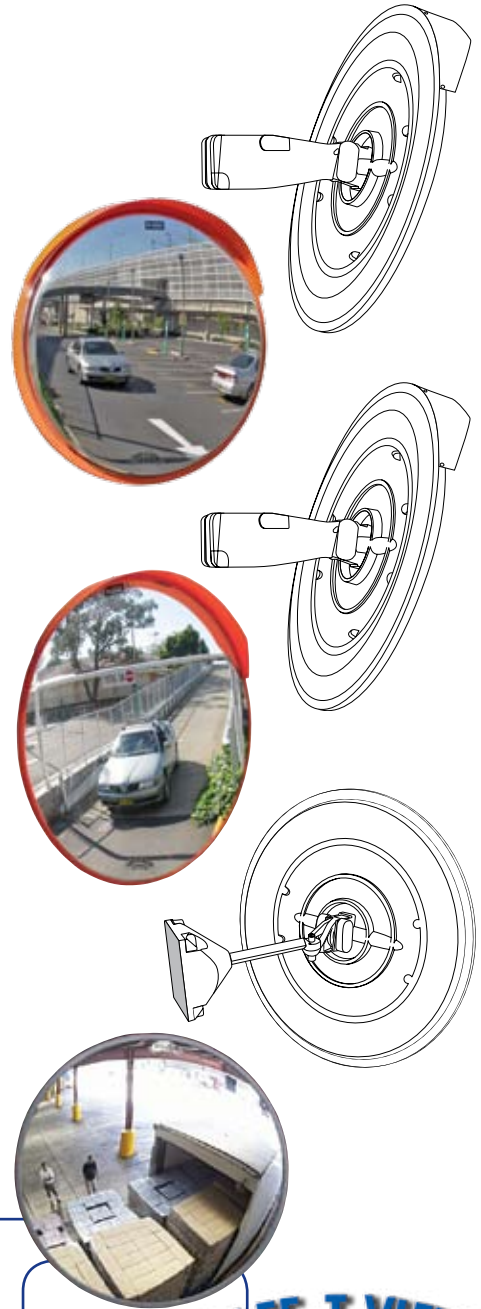

Improve safety and protect your property with industrial quality Safe-T-View Convex Mirrors. At intersections with poor visibility, sharp bends, obscured entry-exit locations, carparks and where heavy trucks or forklifts are in operation, the risk of property damage or serious personal injury is heightened. Convex mirrors help prevent accidents by extending the field of vision of drivers and pedestrians. SAFE-T-VIEW outdoor mirrors are widely accepted by municipal councils, railways, mining companies and heavy industry. Less convex than indoor mirrors to provide a larger image, essential for road and traffic safety (Premium and Standard outdoor).

- Orange visor and surround calls attention to the mirror (Premium and Standard outdoor)
- Convex shape prevents dazzling glare.
- Extremely durable, weatherproof construction.
- Low-cost, no-maintenance solution to improved safety.

05 Premium Outdoor
With a mirror polished stainless steel face and high visibility orange visor, mounted with extremely robust post bracket, this almost unbreakable, all weather mirror is suitable for road and rail safety, mining applications and isolated locations where vandalism may be a problem. Security caps cover fixings. Supplied with fixings.

06 Standard Outdoor
An extremely durable all weather mirror suitable for road and pedestrian traffic applications, distribution depots and parking areas. Impact resistant acrylic face with high visibility orange visor and extremely robust post bracket. Security caps over fixings.

07 Economy Outdoor
Strong industrial wide-angle mirror with impact resistant acrylic face, weatherproof back, wall mounted with security capped fixings. Ideal for factories, warehouses and carparks.
